SOUVENIR—Japan-British Exhibition, 1910. Series IV.

Illustrated by Mortimer Menpes.

"OUR JAPAN."

Sun and Lanterns. Paper is very largely used in Japan. Doors are made of paper, the blinds in shops are of paper, the lanterns, fans, pocket-handkerchiefs, and innumerable other articles; and the designs upon them, even those gaudy pictures in red and blue which come to Europe, are often an episode in the life of some famous individual, or a legend, for Japan is a tissue of allegory.
